DESIGN DETAILS

Starting point: Make a plan and finish one room at a time. Our way of designing is to make selections for all aspects of the room—paint, lighting, furniture, fabrics, etc.—even if the client doesn't intend to implement all aspects of the design immediately. This process helps the client have a complete vision of the final product. As a result, they feel confident in their selections.

How do you decorate shelves and bookcases? Shelves are our specialty! There are many ways to bring symmetry and unity to shelves depending on the room you are decorating or the overall look you're trying to achieve. We rely on a few tips and tricks we have picked up over the years. Asymmetry on a few shelves will keep things interesting and will help avoid a racing-stripe appearance down the center of your

bookcase. You can always add some height by leaning a piece of artwork on a shelf or placing some coffee table books upright with bookends to hold them up. For another look, lay larger books flat and place a decorative object such as a piece of Susan Gordan pottery on top. Always make sure the color scheme, down to the organization of book spines, is uniform on each shelf. We also like to incorporate greenery to keep things fresh.

LOCATED IN CAHABA HEIGHTS, CHICKADEE INTERIORS is a full-service design studio and shop offering everything from floor plans and finish selections to furnishings, lighting, and accessories. Through their collaborative design approach, owners Kate Hartman and Kelly Neely strive to create spaces that give clients the best versions of their personal style. Kate and Kelly emphasize the importance of function and practicality, and they believe that the success of a design is in the details. Their storefront is filled with a curated selection of home décor and furnishings, lighting, personal accessories, and gifts for all ages. The mission of Chickadee Interiors is to provide a space where customers can find inspiration, the perfect gift, or help with all of their interior needs.
